

Northern Chrome Dome Route

November-December 1964

Daily Chrome Dome sorties flown from 16 November through December of 1964 by B-52D aircraft from the 494th Bombardment Wing (Heavy) at Sheppard Air Force Base, Texas. Each bomber was armed with four B28 thermonuclear bombs. The alternate "Low Route" would be flown in case of HF radio malfunction.

History, 494 Bombardment Wing (Heavy), October-December 1964, K-WG-494-HI, AFHRC, Exhibit 15.
